

## TRANSFERENCIAS JUNIO 2007

Si bien los ingresos con los que cuentan los Gobiernos Regionales y Locales son diversos, este reporte brinda la información de las transferencias efectivamente realizadas y percibidas por los Gobiernos Regionales y Locales (Provinciales y Distritales) por concepto de Canon Minero registradas durante Junio del 2007, región por región.

Sin embargo, creemos pertinente empezar este reporte con una breve explicación de lo que es y la mecánica de transferencia de estos recursos, de modo que la información que se brinda se perciba adecuadamente.

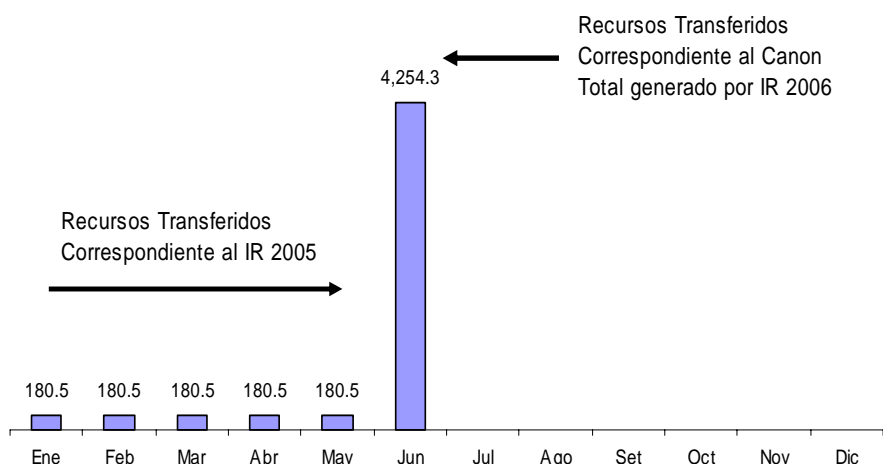

**El Canon Minero** es la transferencia a los gobiernos regionales y locales del 50% del Impuesto a la Renta (IR) que el Estado recibe por la explotación económica de los recursos.

**La distribución** del Canon se realizó de la siguiente manera:

### Transferencia del Canon Minero Junio 2007 = 4,254 Millones de nuevos soles

Distribución en año 2007  
(Millones de Soles)

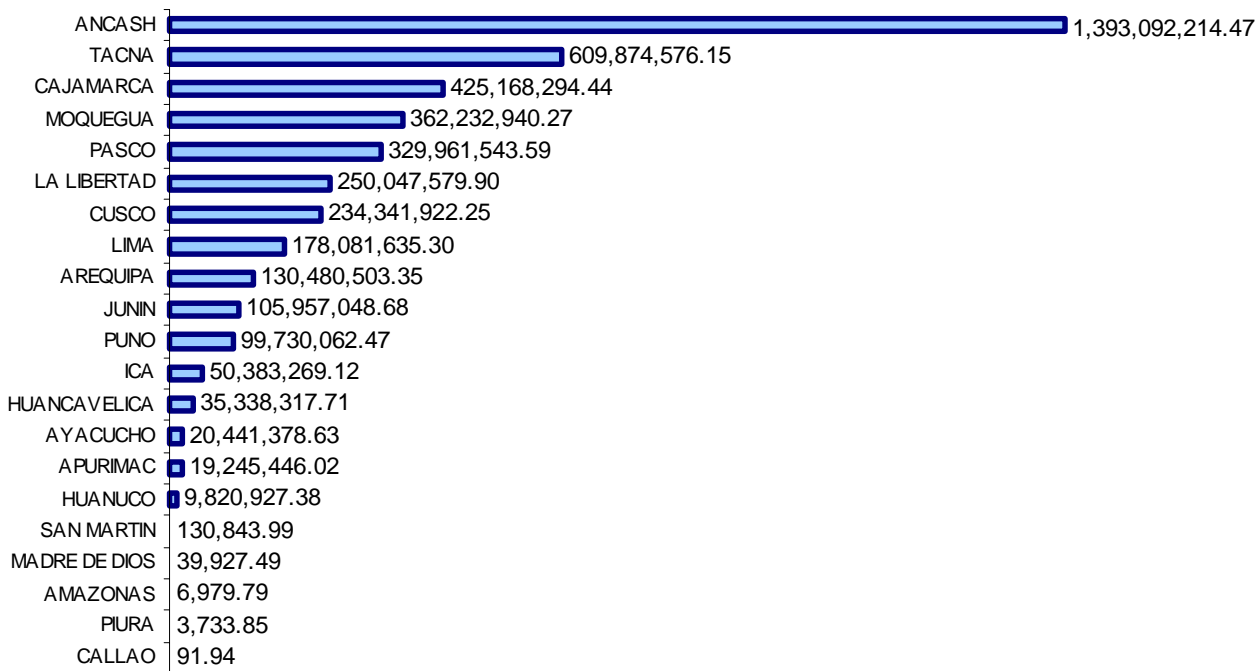

### El periodo de distribución:

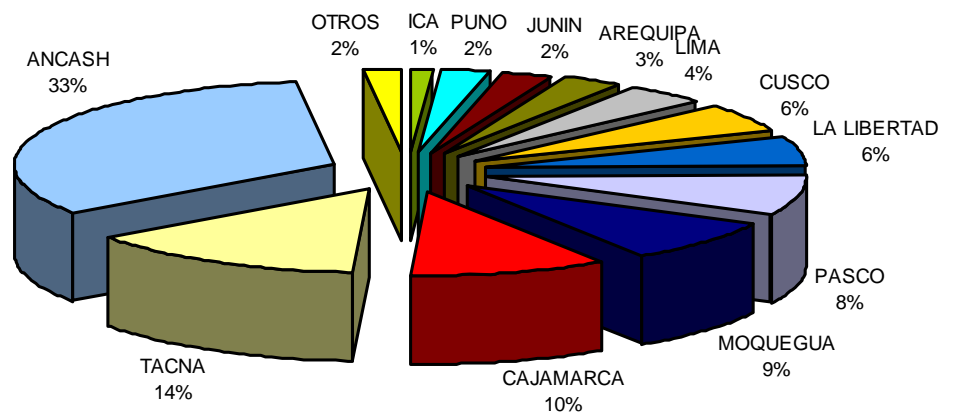

Hasta el año pasado, el Canon generado por el Impuesto a la Renta en un periodo determinado, se transfería a los gobiernos regionales y locales a partir de junio del año siguiente hasta mayo del año subsiguiente, distribuido en 12 cuotas iguales.

El presente año, la distribución del canon que se generó por el ejercicio del año 2006 (es decir con el impuesto a la renta pagado por las empresas mineras en base a sus actividades realizadas en el año 2006), ha sido distribuido en una sola cuota entregada a los gobiernos regionales y locales a inicios del mes de junio.

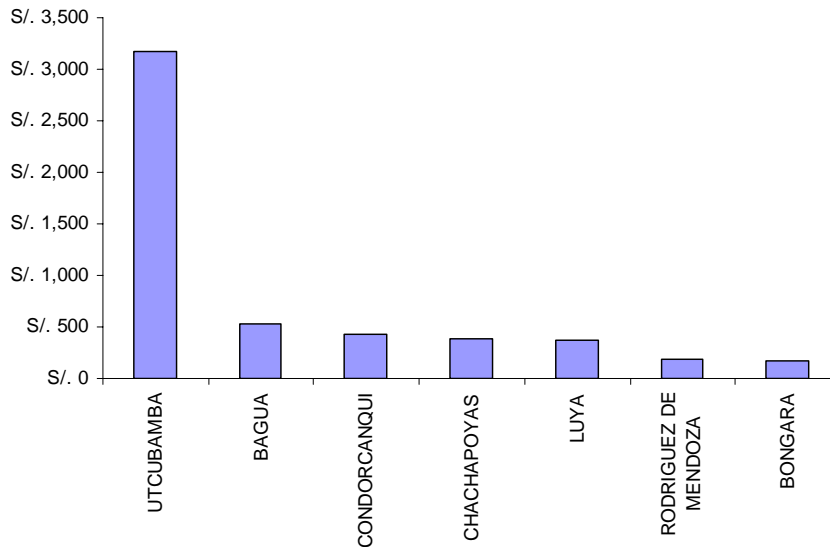

**Los montos totales distribuido a los Gobiernos locales y a los Gobiernos Regionales en Junio del 2007 son los siguientes:**

La estructura de participación en el total distribuido por región es:

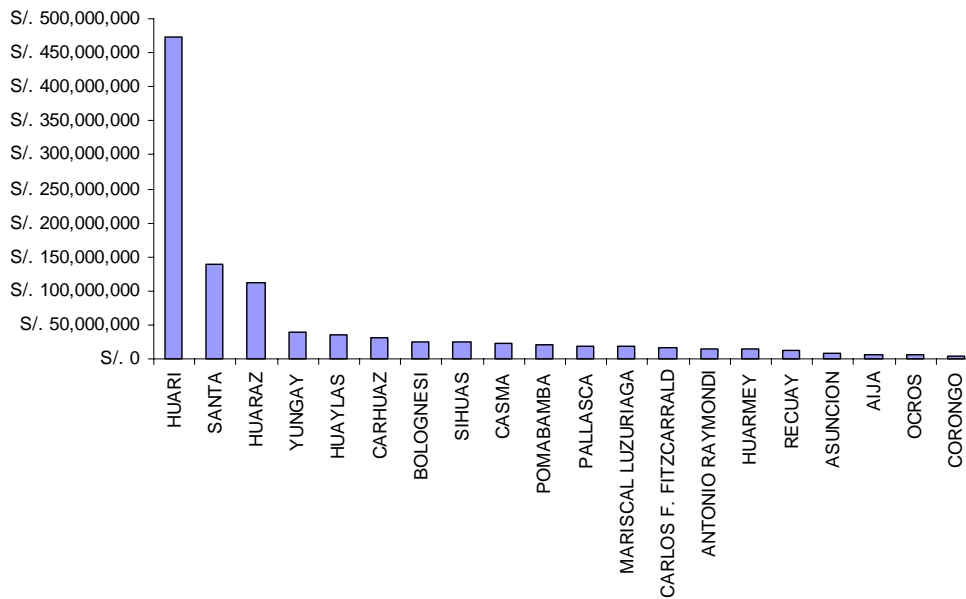

**Distribución de Canon Minero por Provincias**

**Transferencias de Canon Minero en junio del 2007 (en nuevos soles)**
